

Barnak Banerjee

Mechanical Engineering Undergraduate

Hands-on experience in CAD modelling, workshop practices, and industrial processes through training at Banaras Locomotive Works. Passionate about developing practical engineering solutions by combining mechanical design with programming. Possesses working knowledge of Python, Java, and C, with an interest in software development and automation.

Education

- B.Tech. in Mechanical Engineering
 - Techno Main Salt Lake | Expected Graduation: 2027
- ISC (Class XII) – St. Stephen's School
 - 2022 | 81.61%
- ICSE (Class X) – St. Stephen's School
 - 2020 | 71.12%.

Skills

Mechanical Design & Analysis	Programming
SolidWorks	Java
ANSYS (Basic)	Python
Engineering Drawing	C
Mechanical System Design	Object Oriented Programming

Projects

Computer Vision Assisted Robotic Arm

Jun 2026 - Present

- Developing a robotic arm for automated pick-and-place operations.
- Integrating mechanical design with computer vision and embedded control.
- Using Python, OpenCV, and MediaPipe for object recognition and gesture-based operation.

Medical Supply Delivery Drone

Sep 2025

- Proposed an autonomous drone system for delivering emergency medical supplies to disaster-affected and remote areas.
- Conducted research on payload capacity, navigation systems, autonomous flight, and obstacle avoidance.
- Assisted in preparing the technical proposal and presentation for the Smart India Hackathon.

Internship

Banaras Locomotive Works (BLW)

Jul 2025 - Aug 2025

- Observed locomotive manufacturing, assembly, and maintenance operations in a large-scale industrial environment.
- Gained practical exposure to machine maintenance, fabrication, and production workflows.

Languages & Interests

Languages	Interests
English (Fluent)	Filmmaking & Visual Storytelling
Bengali (Native)	Specialty Coffee Brewing
Hindi (Native)	Playing the Flute (Bansuri)
